

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

1. Identification of the substance or preparation and company name

trade name: Modelling Wax / Bitewax / Wax for orthodontics & braces

Ref. Numbers: 9002515 9001514 5720994
9002516 9001515
9001502 9001516
9001503 9001517
9001504 9001518
9001505 9001519
9001506 9001520
9001507 9001500
9001508 9001499
9001509 9001521
9001510 9002528
9001511 9002596
9001512 9002597
9001513 9002598

Industry: Chemical-technical industry, Cosmetic industry,
Pharmaceutical industry, Basic component

Use of the substance / preparation: The product is intended for further processing or use as a raw material for production.
To clarify further applications, please call us at the telephone number provided. We will forward you to the responsible employee of the application technology.

Manufacturer: Henry Schein Inc. 135 Duryea Road Melville, NY 11747 / USA Responsible for the Safety Data Sheet: Regulatory Affairs Europe - cbdeurope@henryschein.com	Authorized EU Representative: Henry Schein Services GmbH Monzastrasse 2a 63225 Langen / Germany	Contact : cbdeurope@henryschein.com www.henryscheinbrand.com Tel: +49 6103 757 5000

Emergency telephone number INTERNATIONAL: +49 (0)6132 84463 - GBK GmbH (24h 7d/w - 365d/a)

2. Possible dangers

2.1 Classification / Hazard Identification: Does not require labeling
1272/2008, current version
67/548 / EEC or 1999/45 / EC, current versions

2.2 Additional safety instructions for Risk of skin burns due to hot melt Human and environment:

3. Composition / indication of ingredients

Information on preparation / substance

Chemical characterization: microcrystalline wax

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

CAS numbers of the components: 64742-51-4
92062-09-4
64742-60-5

EINECS numbers of components: 265-154-5
295-523-6
265-163-4

Hazardous ingredients: none

Reach Registration number: 01-2119480133-46
01-2119487475-25
01-2119488075-32

4. First aid measures

General information: Take off soiled and soaked clothing

In case of eye contact: In case of contact with eyes, rinse thoroughly with plenty of water. If eye irritation occurs, consult an ophthalmologist.

In case of skin contact : After contact with the molten product affected area quickly cool with water. Do not peel solidified product off the skin.

After inhalation: Remove affected person to fresh air. If irritation of the respiratory tract, seek medical attention.

After swallowing: Rinse mouth thoroughly with water.

Informations for the doctor: No information available. Treat symptomatically.

5. Fire-fighting measures

Suitable extinguishing agents: Sand, foam, dry chemical, carbon dioxide (CO₂)

For safety reasons unsuitable extinguishing agents: Water jet

Special hazards caused by the substance or by the product itself, its products of combustion or resulting gases: Fine dust clouds can form explosive mixtures with air. Fire may generate dangerous fumes / gases: carbon monoxide, carbon dioxide,

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

nitrogen oxides (NOX) soot
and other organic products.

Special protective equipment for
firefighters:

In case of fire: Wear self-
contained breathing apparatus.

Additional information:

For the protection of persons and for the
cooling of Containers in the Hazardous area Use water spray jet.

6. Accidental Release Measures

Security measures related to persons:

Remove sources of ignition, ensure adequate ventilation /
respiratory protection (see item 8), avoid dust formation.

Environmental precautions:

Do not allow to get into the ground / soil / drains or waters.

Cleaning method:

Freeze. Take up mechanically. Treat the collected material
according to the section Disposal.

7. Handling and storage

Advice for safe handling:

Avoid dust formation. Fine dust clouds can form explosive
mixtures with air. In case of thermal processing, make sure
to extract the vapors or provide adequate ventilation.

Information about fire and explosion
protection:

Take precautionary measures against electrostatic
charging. Product can only form or burn ignitable mixtures
when heated to temperatures above the flashpoint.

More information

Requirements for storerooms and containers:

Only use containers approved for the substance / product /
product group. Ensure sufficient storage room ventilation.

Advice on storage compatibility
Materials to avoid:

oxidant

Further information on storage conditions:

Keep container in a cool, well-ventilated place.

Fire class:

B

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

Storage class VCI:	11 (combustible solids)
Certain uses:	Observe technical data sheet.
PNECs	No data available
DNELs	No data available

8. Exposure controls / personal protection

Ingredients with workplace-related limit values to be exceeded

National occupational exposure limits: No data available

European occupational exposure limits: No data available

Technical protective measures: In case of thermal processing, ensure that the vapors are extracted and that there is adequate ventilation.

Personal protective equipment

Respiratory protection: Respiratory protection in case of aerosol or mist formation:
Use mask with filter type A2, A2 / P2 or ABEK.

Safty Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

Hand protection:	Adjust hand protection to other chemicals used. Preventive hand protection is recommended. Regular use of skin protection cream is recommended.
Eye protection:	Frame glasses with side protection
Body protection:	If contact with hot product is possible, wear heat resistant, flame retardant protective equipment.
Hygiene measures:	The usual precautionary measures are to be adhered to when handling chemicals. After work / before eating breaks ev. Clean wax-contaminated skin with water and skin-friendly cleansing agents. Avoid inhalation of wax fumes.

9, physical and chemical properties

Shape:	firmly	
Colour:	white to whitish	
Odor:	weakly typical	
Important information on health, environmental protection and safety		
PH value:	not applicable	not applicable
Dropping point (DIN ISO 2176):	60 - 100 ° C	60 - 100 ° C
Boiling point /	not determined	not determined
Vapor pressure:	not determined	not determined
Density at 20 ° C (DIN 53217)	approx. 0.93 g / cm ³	approx. 0.93 g / cm ³
Solubility in water:	insoluble	insoluble
Viscosity at 120 ° C (DIN 53019):	<30 mPas	<30 mPas
Flash point (DIN ISO 2592)	> 100 ° C	> 100 ° C
Ignition temperature:	not determined	not determined
Self:	not determined / above the flashpoint	
Explosive properties:	Fine dust clouds can form explosive mixtures with air.	
Explosion hazard: only in aerosol / dust form	Explosion hazard: only in aerosol / dust form	
Oxidizing properties:	not known	
Vapor Density:	not applicable	
Evaporation rate:	not applicable	

10. Stability and reactivity

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

Materials to avoid: Strong oxidizing agents
Hazardous decomposition products: No dangerous decomposition products known

Conditions to avoid: No dangerous reactions known

11. Toxicological information

Non-human toxicological data Acute oral toxicity:

LD50 (Ratte) > 5000 mg/kg

Acute dermal toxicity:

LD50 (rabbit) > 2000 mg / kg

More information:

Data obtained by analogy (QSAR)

12. Environmental information

ecotoxicity:

No data available

Behavior in environmental compartments:

When properly introduced into adapted biological wastewater treatment plants, no disturbances are to be expected. Essentially, the product can be separated mechanically. Elimination takes place predominantly by absorption at the sewage sludge.

General information:

Do not discharge product into the environment.

13. Disposal considerations

Product: May comply with local regulatory requirements, e.g. a suitable one Incinerator be supplied.

Waste key number according to Waste Catalog Ordinance (AVV)

Waste code:

For this product, no waste code number according to the European Waste Catalog can be specified, since only the purpose of use by the consumer allows an allocation. The waste code number must be determined in accordance with the European Waste Catalog (2000/532 / EC) in consultation with the disposer / manufacturer / authority.

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)
Version: 15/01 D-DM-MF Modification date: 12 July 2017

Empty empty packaging: Non-contaminated and emptied packaging can be recycled.
Non-cleanable packaging must be disposed of.

14. Transport information

ADR/RID: Not dangerous goods in terms of transport regulations

15. Legislation

Labeling according to EC directives: The product needs in accordance with Directive 67/548 / EEC or 1999/45 / EC; as well as in accordance with EC / 1272/2008.

National regulations: Annex I: Hazardous ingredients not mentioned by name
Störfallverordnung: (StörfallV 2000)

TA air: 5.2.5 Organic substances

Water hazard class Classification: slightly hazardous to water according to VwVwS

16. Other information

Recommended restrictions on use: Do not heat above the flash point.

SVHC
The ones in the list
(<http://echa.europa.eu/en/candidate-list-table>) are not expected in our products nor have they been intentionally added during the production process.
Our products have no contact with these substances during the manufacturing process.

The fact that these substances are not deliberately added does not rule out the presence of ubiquitous traces of natural impurities or due to characteristic properties of the raw materials with a content below 0.1%.

The information in this safety data sheet corresponds to the best of our knowledge at the time of printing. The information should give you indications for the safe handling of the product mentioned in this safety data sheet

Safety Data Sheet

gem. EC / 1272/2008 (Amendment to the REACH Regulation)

Version: 15/01 D-DM-MF Modification date: 12 July 2017

during storage, processing, transport and disposal. The details are not transferable to other products. Insofar as the product mentioned in this safety data sheet is mixed with other materials, mixed or processed, or subjected to processing, the information in this safety data sheet, unless expressly stated otherwise, can not be transferred to the new material produced in this way.

With this latest version of the safety data sheet, all previous versions automatically lose their validity.
